

voted best RIP & best overall product...

Caldera's VisualRIP+ was voted the Best RIP software and Overall Best Product of the Year in Wide Format Imaging's Reader's Choice Top products of 2008.

CopyRIP

CopyRIP is a powerful and easy to use desktop RIP solution which delivers all the features you need to print professionally. Discover Caldera's intuitive interface and super fast preflight and preview features. CopyRIP enables you to quickly crop, rotate, resize and colour enhance the document before printing. Whether used for processing PostScript, PDF or raster files, CopyRIP delivers high quality output with its powerful ICC compliant RIP engine.

CopyRIP also includes Step & Repeat and Nest-O-Matik features that will automatically optimize your media usage. With it's SuperSpooler, you get 'live' control and simultaneous access to your files in process, on any driver printer. Stop, release, reorder, change the number of copies of any job in real time, on your workstation or using a remote web browser.

CopySCAN

CopySCAN is a complete and simple solution for reproducing high quality documents. Raster File-to-Print and Scan-to-File with ease and precision.

CopySHOP

CopySHOP is the powerful combination of CopyRIP and CopySCAN delivering all the combined features you need to RIP (PS + PDF + HPGL + Raster), print, scan and convert files professionally.

VisualRIP

VisualRIP⁺

VisualRIP / VisualRIP+ are full featured production workflow solutions for large format Print and Print-to-Cut, packed with intuitive and sophisticated features: Hotfolders, Drag and Drop, Nest-O-Matik, integrated ICC colour engine.

Both are entirely modular to meet your future production needs. The software is easy to use, driving several printers simultaneously, with full control over which machine prints what and the easy ability to switch designated jobs to other queues.

Additionally, they provide spot colour matching and real time output simulation, and also incorporate multi-printing routines such as Step & Repeat, Nest-O-Matik nesting and multi-printer spooling.

For reliable and high output quality VisualRIP / VisualRIP+ are the ideal RIP solutions for printing wide format jobs with eye catching colours and contrasts.

ReproSHOP

ReproSHOP is the ultimate reprographer's 'Swiss Army Knife'. Software solution: Scan-to-Print, Scan-to-File (PDF + Raster) and File-to-Print (any format, PDF, PS, HPGL or Raster).

ReproSHOP is a fully integrated solution which combines the features of CopySHOP and VisualRIP+, making it the best multitask and multi-peripheral solution for Print and Scan.

ReproSHOP also includes Task Automation, Super Spooler, Spot Colour Matching, Tiling, PS/PDF RIP, ICC support, Fotoba Digitrim, SignMark, White Ink, HP-GL, Scan-to-File, Scan-to-PDF.

CostPROOF

The CostPROOF module accurately calculates the cost of a print (media and ink) even without printing the file.

EasyMEDIA

EasyMEDIA enables ICC profile creation for both scanners and printers.

Nest-O-Matik™ :

Automatically positions files across the roll or sheet for media and ink optimisation

Step & Repeat :

Sophisticated automatic feature to repeat files on a page. File is RIPed only once

Tiling feature™ :

Split up documents in various strips for big format jobs
