

WIDE FORMAT COLOUR COPY/PRINT/SCAN SYSTEMS

Tailored to your exact requirements...

As there are many differing Wide Format document applications it is essential to choose a solution with a printer module appropriate to the type of image output required. A modular Xerox system from Springstar gives you the biggest choice of printer and interface options for most applications. Why compromise? Purchase only the capability you require. If your needs change then you can upgrade or replace an individual module. Coupled with the comprehensive but economical manufacturer's support package a tailored Xerox Wide Format Colour Multi Function system is a compelling proposition.

Benefits...

- Purchase, rental and lease options
- Pay only for the functionality you require with our scalable range of solutions customised to your exact print/scan & RIP needs
- Each module is individually upgradeable
- Wide range of applications catered for (e.g. indoor, outdoor or both)
- Total support from Xerox for complete solution including media, based on simple monthly charge for at least five years (no warrantee upgrades or expensive out of warrantee cover extension required)
- Professional delivery, installation, network connection and training package included in the price

Printer

- Wide choice of printer unit
- CAD, poster, exhibition, fine art, outdoors, general & more
- Print speeds up to 42 square metres per hour
- Media widths up to 90 inches
- Wide range of Xerox ICC profiled media

Scanner

- Choose colour capability
- Specify from 3 available scan speeds

Interface

- Choose a basic software interface or a choice of fully featured hardware RIP
- Full support for 'seamless' printing, copying and scan-to-file
